

INTRODUCING

SPILL RESPONSE TRAILERS

Providing a first response solution to an emergency spill situation.

Can-Ross Spill Response Trailers enable trained personnel to effectively respond to hydrocarbon and hazardous material spill situations in a timely fashion.

Our Spill Response Trailers come equipped with Adsorbents, Personal Protection Equipment, Recovery Products as well as the accessories you would need to contain and control a spill. The trailer inventory consists of a supply of color coded Adsorbent material for use on oil and chemicals releases. For a detailed inventory listing please review the listing located on the back page of this brochure.

The Can-Ross Spill Response Trailers are designed for companies and government agencies that wish to equip themselves with the necessary resources to respond to a spill should they occur. As a first response, the spill response trailer combined with formal spill response training will demonstrate due diligence while ensuring emergency preparedness.

Spill Response Training is available and Recommended through an independent certified trainer and should be considered mandatory for all personnel that intend to be responding to Emergency spill situations.

Quick Mobility of Tools, Supplies and Materials to efficiently and effectively respond to a spill situation.

Decaling Option Available with your company logo and contact information.
